To be fuelled with LNG at Zeebrugge**

**2016: Engie Zeebrugge LNG bunker vessel  
(Engie, NYK, Mitsubishi, Fluxys)**

**SECA areas**

**IMO agrees to limit ships' NOx emissions in the Baltic Sea**

in Emissions, Focus 21 October 2016

IMO MEPC 70 has agreed to limit Nitrogen Oxide (NOx) emissions from ships' exhaust gases in the Baltic Sea as proposed by HELCOM countries. A similar proposal from the North Sea countries was also approved. After final confirmations at the next MEPC meeting in spring 2017, these two decisions will create a larger Nitrogen Emission Control Area (NECA) for new ships built in or after 2021.

**2021: NECA area Baltic & North Sea**

## SMALL SCALE - ROADS

**Truck loading services  
available to market since 2010  
2nd loading bay in 2017**

**FIRST LNG REFUELLING STATION  
OWNED AND BUILT BY FLUXYS IN  
BELGIUM IN 2014**

**PARTNERSHIP WITH HAULAGE  
COMPANY MATTHEEUWS**

**Co-financed by the European Union**

**Trans-European Transport Network (TEN-T)**
