

MINISTRY FOR
INNOVATION AND TECHNOLOGY

The way forward for the EU internal energy market

Andrea Kádár

Deputy State Secretary for Energy

Energy Trading Central & South Eastern Europe Annual Conference

13 June 2018

Energy Union Strategy

3 main objectives

Security of supply

Competitiveness

Sustainability

#EnergyUnion

5 dimensions

Energy security, solidarity and trust

Integrated European energy market

Energy efficiency

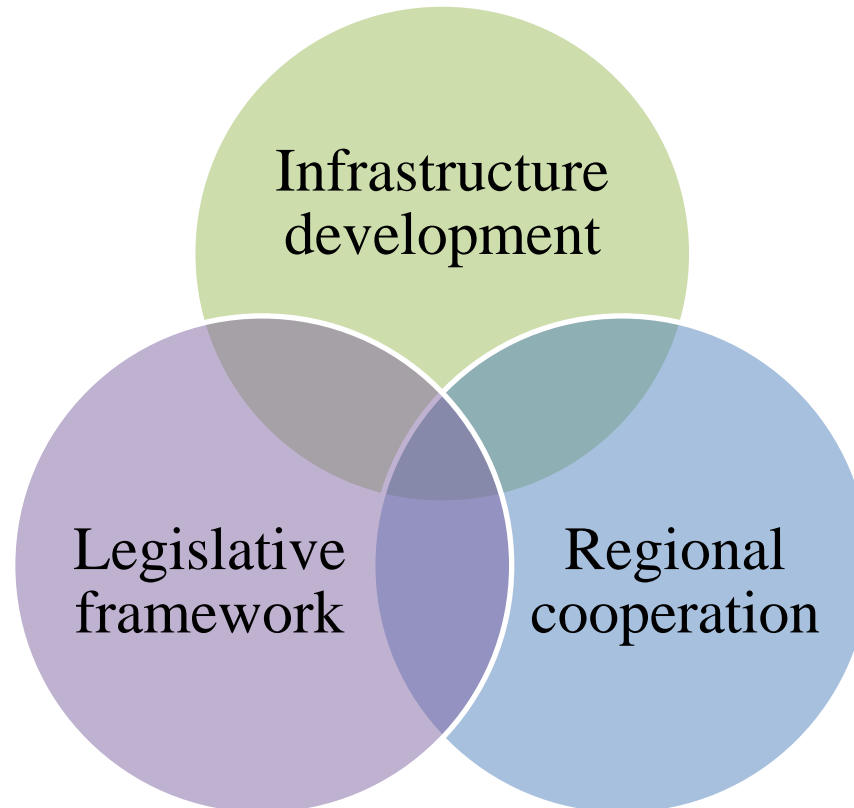

Decarbonisation

Research, innovation and competitiveness

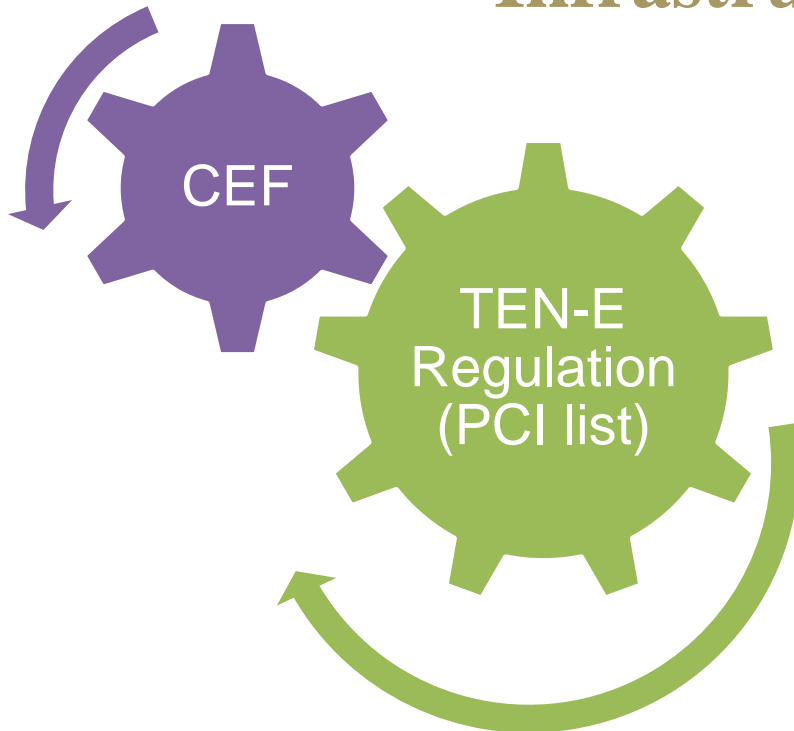

MINISTRY FOR
INNOVATION AND TECHNOLOGY

Tools for completing the internal energy market

Infrastructure development

Hungarian PCI projects:

1. Electricity

- HU-SK interconnector
- HU-SI interconnector

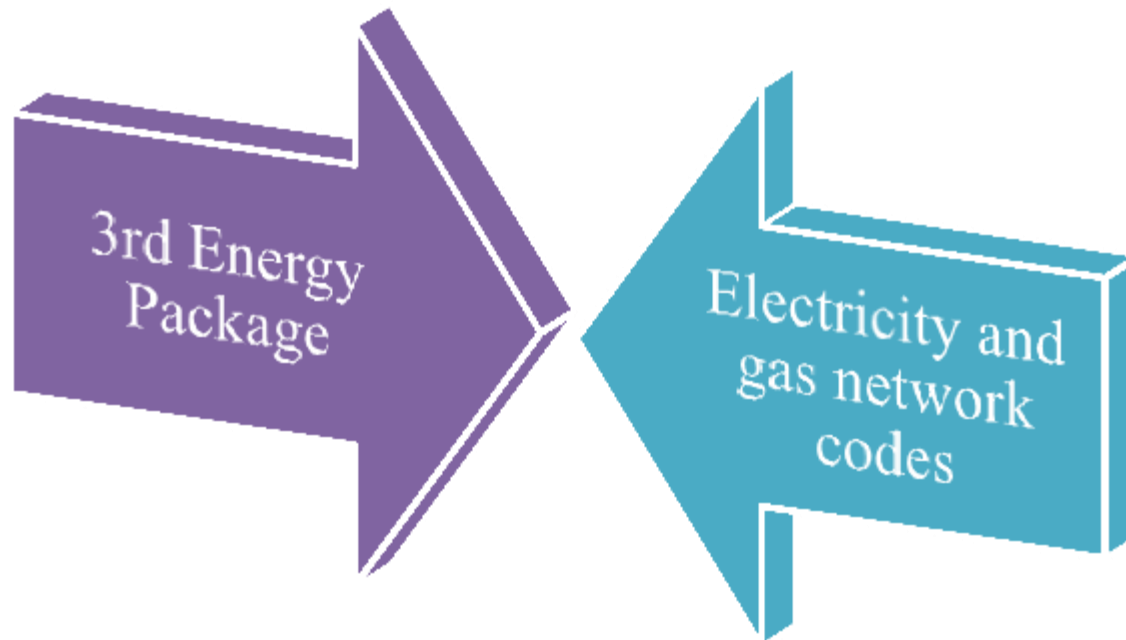

1. Gas

- RO-HU project (BRUA)
- Improvement of HU-SK interconnector
- HU-SI interconnector

MINISTRY FOR
INNOVATION AND TECHNOLOGY

Market legislation

Regional initiatives

Regional electricity market integration

- 4M MC
- Western Balkans 6

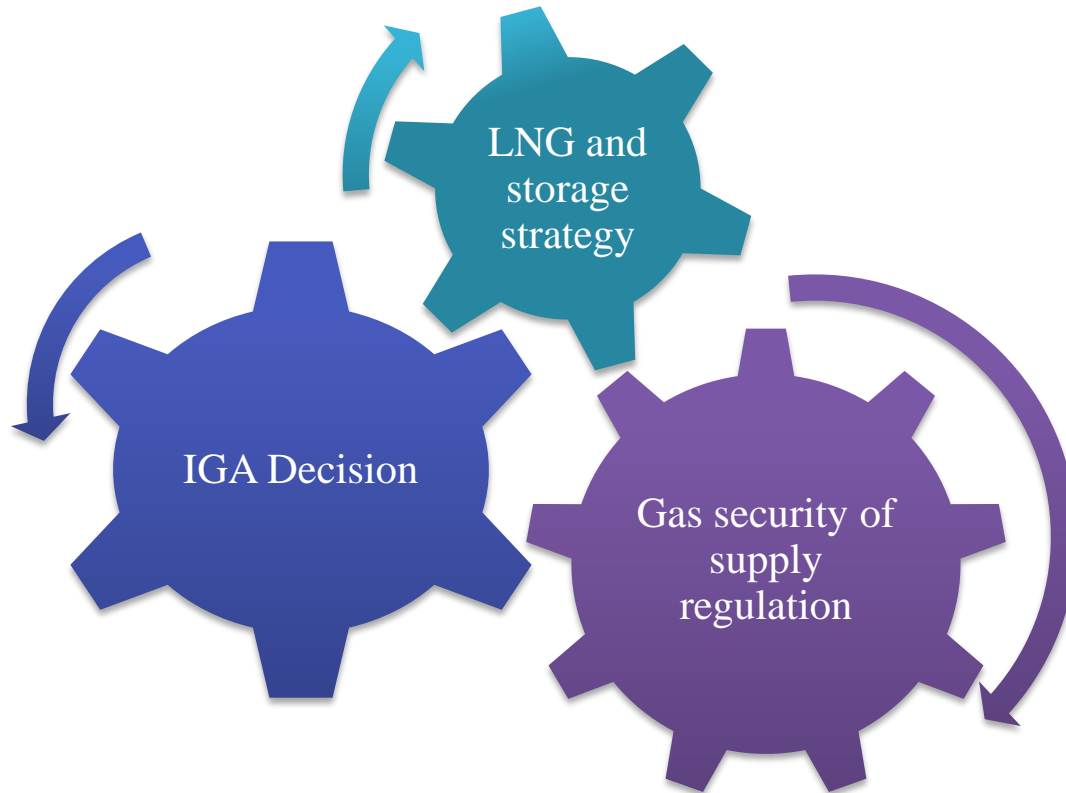

CESEC

- Gas priority projects and regional market development
- Electricity projects
- Renewables and energy efficiency

MINISTRY FOR
INNOVATION AND TECHNOLOGY

Implementation of the Energy Union – Gas security of supply, upcoming new gas market legislation

Implementation of the Energy Union – „Clean Energy for All Europeans” package

Energy Union Governance

Energy efficiency

Energy Efficiency Directive,
Energy Performance of Buildings
Directive
